

JCF GRANTS AWARDED FOR 2020

The Jewish Community Foundation of Greater MetroWest NJ (JCF) has awarded 31 grants for a total of \$322,302. An additional \$173,700 was also awarded in ongoing commitments to previous grantees. These grants, approved for the upcoming fiscal year, are part of a strategic initiative aimed at helping people throughout the local and international Jewish community through a wide variety of innovative programs. This year, grant priority areas included support for education, the elderly, and the needy in the Greater MetroWest area; support for people with disabilities, seniors, and refugees in Israel; cultural enrichment in Israel; and, for the Innovations grants, support for programs that can reach those who do not feel engaged in the GMW Jewish community.

Grant applications are evaluated by an esteemed committee of lay leadership to determine recipients. The application process was robust and competitive in all categories.

- JCF awarded \$50,902 for one-time Greater MetroWest Community grants to seven programs that serve the needs of the community.
- JCF awarded \$23,900 for one-time Israel Restricted grants to four programs that serve underserved communities in Israel.
- JCF awards \$247,500 over three years for Innovations Funding grants to two community outreach programs.
